

WE ARE WORKING TO MAKE THE EDUCATION INDUSTRY A **SAFER PLACE**

Teachers and school staff may be exposed to violence and aggression from students or parents. This can lead to physical and emotional harm, as well as decreased job satisfaction and increased absenteeism. Whether the issues come from students or from a domestic dispute playing out on school grounds, we will guide your staff to stay safe and deal with conflict in a professional matter.

We do this by providing you with comprehensive training solutions that ensure you and your staff are equipped to manage and respond to incidents of occupational violence and aggression.

HOW DO WE DO THIS?

We have 5 proposed learning outcomes from each session of our fully **customisable** courses to help us create safer workplaces.

- 1.** Understanding the concepts and application of situational awareness in current roles
- 2.** Confirming the process for dealing with situations identified as having risk
- 3.** Understand and apply concepts of planning and tactics for high risk activities that follow policy and procedures to make your work place compliant
- 4.** Understanding and applying de-escalation skills to prevent incidents from occurring
- 5.** Running scenario based incidents that empower staff to feel safer at work
