

WE ARE WORKING TO HELP MAKE THE SPORTING INDUSTRY A SAFER PLACE

Employees in the sports industry, including stadium managers, staff, coaches and referees, may encounter violence and aggression from players, fans, or other members of the public. This can lead to physical harm, decreased job satisfaction, and increased turnover rates.

We work to make your events compliant and your staff confident to run any size event. Providing you with comprehensive training solutions that ensure you and your staff are equipped to manage and respond to incidents of occupational violence and aggression.

HOW DO WE DO THIS?

We have 5 proposed learning outcomes from each session of our fully **customisable** courses to help us create safer workplaces.

1. Understanding the concepts and application of situational awareness in current roles
2. Confirming the process for dealing with situations identified as having risk
3. Understand and apply concepts of planning and tactics for high risk activities that follow policy and procedures to make your work place compliant
4. Understanding and applying de-escalation skills to prevent incidents from occurring
5. Running scenario based incidents that empower staff to feel safer at work
